3 Courses

Docker Fundamentals

Getting Started with Docker

Advanced Docker

Oct 4, 2025

Chaitanya Bharat Gote

has successfully completed the online, non-credit Specialization

Docker Certified Associate (DCA)

This Learnkarts Certificate is earned after successfully completing 3 courses on various topics in Docker Certified Associate (DCA). The learner understands Docker and its function within the DevOps lifecycle, builds images, containers, swarms, volumes, and networks, and establishes client-server authentication and Docker security client bundles. The earner of this certificate has acquired a comprehensive knowledge of Docker, a popular tool for containerization. Learner has learned the fundamentals of starting with Docker, its architecture, creating images, and building Docker containers, proficient in configuring containers, Docker networking, orchestration, storage and volumes, and Docker security, and is now prepared for the Docker Certified Associate (DCA) certification.
